LGBTQ CULTURAL COMPETENCY:

DEVELOPING PROFESSIONAL COMPETENCE FOR WORKING WITH LESBIAN, GAY, BISEXUAL, TRANSGENDER, AND QUESTIONING (LGBTQ) PEOPLE

Did you know?

- LGBT youth who experience negative feedback and rejection from their families are eight times more likely to attempt suicide compared to peers who experience no or low levels of family rejection (Ryan, 2009).

- Homophobia in the work place has been found to be related to lower levels of work satisfaction, higher absenteeism, and stronger intentions to quit (Waldo, 1999)

Develop your LGBTQ cultural competence by attending this introductory training, which is designed to provide up-to-date and accurate information about LGBTQ people.
